

30 April 2018

Hamilton City Council 10-Year Plan Submission

We support the following:

- Central City Park and the Regional Theatre
 - The Victoria on the River project as received an amazing amount of positive feedback, leading to support of the Central Park. This area of Victoria Street needs to be revamped, especially once the new theatre has been built.
- River Plan Projects
 - Projects in the CBD, that support the Regional Theatre and connection to Hamilton East.
- Development Contributions Policy
 - Recommend that this has a staged implementation over a period of time.
- Rates Increase
 - Unfortunately this is required for the City, but Hamilton has been lucky enough to have had rates savings in the past.
